A spot cash purchase of this magnitude on top of our already large stock would ordinarily be beyond our reach, and had it not been for the assistance given us by a banking institution this stock would have gone to Boston, and our public would have lost the opportunity of buying the very cream of all classes of Dry Goods for LESS THAN FIFTY CENTS ON THE DOLLAR.

This stock of goods was bought for one of the most fashionable centres in this country, and is the greatest and choicest collection

ever shown outside of New York city. For more than a week we have been hard at work preparing to get this enormous stock under way of selling, but we now find that
